The Impact of Cash Transfers on HIV/AIDS and Tuberculosis

Naomi Shifrin, 2022, Sociology
The Global Fund to Fight AIDS, Tuberculosis, and Malaria
Geneva, Switzerland
Summer Internship Funded by the Center for Health and Wellbeing

Research Questions

- What is the impact of cash transfers on:
  - HIV/AIDS?
  - Tuberculosis?

Methodology

Research Design

1. **Research Questions**
   - What is the impact of cash transfers on:
     - HIV/AIDS?
     - Tuberculosis?

Methodology

1. **Research Design**
   - What is the impact of cash transfers on:
     - HIV/AIDS?
     - Tuberculosis?

Methodology

1. **Research Design**
   - What is the impact of cash transfers on:
     - HIV/AIDS?
     - Tuberculosis?

Results: HIV

**Categorization for Analysis**

**Results: Tuberculosis**

**Categorization for Analysis**

Concluding: Impact of CTs on HIV/AIDS

**Synthesis: CTs Impact on TB Outcomes**

**Concluding: Impact of CTs on HIV/AIDS**

**Synthesis: CTs Impact on TB Outcomes**

Limitations

- The concept of cash transfers in this context may be oversimplified.
- The analysis may not fully capture the nuances of cash transfers in different contexts.

Looking Ahead...

- What is the role of cash transfers within the Global Fund?
- What does this mean for future and present investment? Why?

Acknowledgments

Thank you to Erin Ferenchick for her astounding support throughout this entire internship process academically, professionally, intellectually, and personally. Thank you to the Center for Health and Wellbeing for supporting this internship from beginning to end.

Questions to Keep in Mind

1. **Sustainability**
   - How frequently are cash transfers implemented and when will they stop? What is the documented sustainability of the particular intervention?

2. **Cost-Benefit**
   - Where is the funding otherwise have gone? What is the efficacy and cost-effectiveness in comparison to alternative programming?

3. **Equity**
   - Who is most impacted by HIV/AIDS in the particular region? Does the program address the needs of the most marginalized and at-risk groups? What is the impact of interventions tested on the most marginalized populations or less marginalized populations?
